

The State of CouchDB

Jan Lehnardt

Friday, January 25, 13

Couch.io/ One/ base

Friday, January 25, 13

- Jan
- CouchDB since 2006
- Couchio/CouchOne/Couchbase
- Couchbase until a week ago

Next: - elephant in the room

Friday, January 25, 13

CouchDB Isn't Dead

Friday, January 25, 13

- elephant in the room
- sauce/canonical
- blog post
- activity down
- Couchbase confusion

Next: 2012 pros

CouchDB 2012

Friday, January 25, 13

- 1.2.0
- new website
- summer break
- definition of insanity: doing the same thing and expecting a different result
- > LOTS of changes

Next: Reboot

CouchDB REBOOT

Friday, January 25, 13

CouchDB Reboot

- Mission Statement *cough*
- More, faster, better releases
- QA
- Docs [show]
- Teams
- focus on getting contributions
- Team meetings (in person and weekly status)
- long list of todos

**Conflicts are the
rule, not the
exception**

New Futon

Friday, January 25, 13

**Improve and
simplify the user
and security
model**

**Remove
reserved
metadata from
documents**

**built-in map /
reduce / filter /
update etc.
functions**

**DSL for index
creation,
validation
functions, etc.**

Support CORS

WebSockets

EventSource

SPDY / HTTP 2.0

Richer querying model

Partial reads & updates of documents

Enhance background task management

Documentation

Global changes feed

**_changes feed
for views**

per-db overrides of server-wide settings

etc. etc. etc.
